No.	Date	Issue	Description																			

This view of the new clubrooms is from the perspective of the carpark as you would be driving down the hill looking to the right. The foyer will be at the eastern end of the construction.

This is a section drawing that gives you a small perspective into the size and dimensions of what is being built.

Gives an internal perspective as you walk out of the lift or stairwell on the second floor towards the bar and open space. Providing a much closer viewing platform allowing lines of sight to nearly all training grounds and pitches, our members will enjoy the benefits of this modern layout designed to suit a great range of uses.

Looking from inside the bar area across the balcony where you will be approximately at the half way line of the repositioned pitch that will be pushed slightly towards Hancock Rd and the hill will be retained and help alleviate the current drainage issues.

CLUBROOM UPGRADE

The above image shows how the newly oriented pitches will be laid out across Tilley Reserve.

This is your view should you be positioned at the northern end of the reserve looking back towards the car park, and gives the perspective that this new facility will be truly outstanding! The canteen, changerooms, public toilets, all accessible from the ground floor.

This will be a place that we hope will bring the Gully community together, a place to eat, meet, drink, laugh, reminisce and basically a clubroom to truly call our home. We can't wait.
